THE MAN THAT WOULDN'T BE HANG-ED .- The following incident has happened at Flessingue, in Holland: A wife, exasperated by the continua drunkenness of her husband threatened him with death. Some days ago she attempted to put her threat into execution. There was but an attic above the sitting-room. To this she a-cended made a hole in the floor, and passed a rope through it, one end of which fell into the room below while the other remained fastened in the attic. She then descended, made a slip-knot in the rope, and awaited her husband's return. He at last arrived and was much surprised to receive no reproaches on his bad con-

'Tuere is something underhand here,' thought he; 'I must see.'
We must premise that this scene took

place in complete darkness. The husband whose suspicions were roused let himself roll into a chair and appeared to sleep profoundly. After some snoring he falt the rope passed around his neck. He then understood the little trick that was to be played him, but did not move His wife went up to the attic, and taking advantage of this momentes respite the drunkard relieved himself of the rope and fastened it to the foot of the stove which soon went up with a frightful noise caused by the fall of some crockery which was standing upon it.

The wife thinking the noise was caused by the fruitless truggle of her hasband ran to the police office to declare that she had found her husband hung. The police arrived in hot hast and a candle was lighted, when all started back at spectacle which presented itself The stove was swinging gracefully in space, and the husband sat gravely smoking his pipe. Instead of suicide an attempt to murder was established against the wife, who was arrested.—
From Le Nord of Brussels.

THE WONDERS OF A WATCH. are very few of the many who carry watches who ever think of the complexity of its delicate mechanism, of the extraordinary and unceasing labor it per-forms, and how astonishingly will it bear up and do its duty under what would be considered very shabby treatment in almost in any other machinery. There are many who think a watch ought to run and keep good time for years, with. out a drop of oil, who would not think of running a common piece of machinery a day without oiling the wheels of which do but a fraction of service. We were forcibly struck with this thought upon hearing a per on remark that, by way of gratifying his curiosity, he had made a calculation of the revolutions which the wheels of a watch make in a day and in a year. The result of his calday and in a year. The result of its true culations is as suggestive as it is inthresting. For example. The main wheels makes four revolutions in 24 hours, or 1460 in a year; the second, or centre, 24 revolutions in 24 hours, or 7760 in a year; the third wheel, 192 in 24 hours or 69.080 in a year; the; fourth wheel, which carries the second hand 1440 in 24 hours, or 525 600 in a year; the fifth 24 hours, or 525 600 in a year; the fifther responded, 12,964 in 24 hours, or 4. 728,400 revolutions in a year: while the beats or vibrations made in 24 hour are 388,800 or 141,812,900 in a year

A New Whitewash for Walls.—Soak one fourth of a pount of glue over night in topid water. The next day put it into a tin vossel in a kettle of water over the fire, keep it there till it boils, and then stir until the give is dissolved. Next put from six to eight pounds of Paris white into another vessel, add hot water and stir until it has the appearance of milk and of lime Add the sizing, stir well, and apply in the ordinary way while still warm. Paris white is sulphate of baryta, and may be found at any drug or paint

Wednesday Morning, April 13, 1870 The People's Verdict, The mass meeting held at the Theatre Royal on Monday evening claims more than a passing notice at our hands. Let us hope it will receive the serious attention of the Executive. Whether regarded in point of numbers or respectability it would be no presumption for it to claim to be 'We the people of Victoria.' The most ardent advocate of Confederation with Responsi' Government must have felt satisf 4 with the result. Unanimity is no w. rd for it. The most intense enthusiasm pervaded the vast assemblage. To pronouce the words Confederation and Responsible Government was to be overwhelmed with applause. To intimate that the colony was not prepared for self-government was to evoke a for self-government was to evoke a burst of hisses against which the brass coat of mail of a Fell and a Fisher alone was proof. The most vague hint in the direction of Annexation was met with a howl of experation. In truth there were not found in all that swaying mass of intelligent men more than a baker's dozen of weak voices raised against the overwhelming 'Aye' with which the resolutions were adopted. As for amendments, there was no man found with sufficient audacity to offer We have no intention of endorsing all that was said by the speakers on the side of Confederation and Responsible Government. Most of what they attered were home-thrust truths; yet we cannot but think that some of the speaches would have been more effective had they been addressed to the reason rather than to the passions of the people. A certain degree of allowance must be made both for speakers and listeners upon such occasions; but we fancy most thinking persons will have experienced regret that the remarks of at least one of the speakers were dis rected more against the personnel of the Government than against the system itseln. And may not the Government learn a lesson from the fact that remarks were received with applause which, under any other circumstances, would have elicited hisses? If unjustifiable abuse of individual members of the Government can be applauded by a arge and respectable public meeting in the capital, surely the conclusion is in-evitable that there is something radi-cally wrong with the system; and if members of the Government will persist in perpetuating a hated system in opposition to the well understood wishes of the people they must not com-plain if they come in for a share of hate But. to come tong, Victoria practical results of the meeting, victoria so long accused of being opposed to Confederation with Responsible Governa ment, has rendered an emphatic verdict in favor of these great measures. Both of the members who represent the city in the Legislative Council have repeatedly asserted on the floor of the House that Victoria was opposed to Confedera-tion. They have got their answer. The senior member has persistently claimed that his constituents were opposed to Responsible Government. He has his answer, and he would do well to lay it to heart. The Governor cannot dispersion of the resulting of the magning. regard the verdict of the meeting. Dr Helmcken advised him that the people did not desire Responsible Government; but the meeting of his own con-stituents on Monday night proves most unmistakably that they had been mis-represented. Dr Carrall advised the Governor that the people did not de-sire Responsible Government; but we have good reason to know that a meeting in Cariboo would pronounce no less distinctly against that advice. In truth, it is undernable that throughout the entire colony Confederation has been desired; and Confederation has been uniformly understood to imply Responwould do well to bow to public opinion -to remember the repeated warnings given by the advocates of Responsible Government in the Legislative Council. There would appear to be but too much reason for apprehending that Confederation unaccompanied by Responsible Government would not b the people of British Columbia. And why should His Excellency seek to withwhy should His Excellency seek to with-hold political rights to which the people are so justly entitled? Why should he invite defeat by an expielding adherence to a decision which had its origin in misadvice? Upon the Governor now rests the responsibility of making or marring the great work of Confederation. Although the confidence of the people has been somewhat shake by the evil counsel which he has take, yet ti is not destroyed; and if he vill, by a timely correction of this error, and by a selection of a Deputation to Ottawa possessing the confidences of the people upon these great issnes,—Confederation and Responsible Government—all will yet be well. The colony was never in a temper more favorable to Confederation; but the Governor must now see that it is in no temper to be cheated out of that which has ever been regarded as one of the chiefest advantages of Confederation, viz, Responsible Government. In the name of all the red-tape and official-lacquer in the the red-tape and ombia-inequer in the world, why should not the people of British Columbia have the power to manage their own local affairs under Confederation? We have repeatedly asserted that they ardently desire it, and the assertion has received additional proof. We have said that the desire of Canada is that we should be placed on

a political equality with the people of the other Provinces, and the leading journal of the Dominion substantiates that statement. It thinks the omission of Responsible Government from the Torms a migtake, and ridicules the idea of treating the people of this colony "as if they were children, by telling them that they they were children, by tening turn thus very are too young' to be trusted with self-government. It tells us, what we have ever claimed, that the people of British Columbia are just as capable of regulating their own local just as capable of regulating their own local vaflairs as are the people of any other Province; and the proposition to constitute the colony a portion of the Dominion and at the same time to rule its people by means of impossible officials and government nominees, is too ridiculous to be entertained for a moment. These are emphatic words. They are words of wisdom. They are the words of Canada. They are the words of British Columbia. Let the Executive read, mark, learn and inwardly digest them!

A MAN SELLS IIIS WIFE, AND THE SHERIFF INTERFERES. — We learn from the Forest City (Mo.) Independent that on the 23d ult., Deputy Sheriff Wolf of Holt county, arrested and locked up a man named Wake, who was indicted on the charge of adultery at the last sitting of the grand jury in that county. It appears that an old man married a young girl for his second wife. Old man and young wife didn't live in perfect bliss. Their ways were not always smooth. Old man was in partnership with young Wake in the peaceful pursuits of farming. The young man being possessed of enterprise and of a disposition for trading, proposed to buy the whole outfit. A bargain was struck, and an inventory of the property was taken. Among numerous other articles the old man's wife was invoiced to the enterpristhing purchaser for five dollars. Everything seemed satisfactory, until the grand jury interfered with the matter, and the officer of the law lodged the young farmer in jail, to wait his trial at the next sitting of the court. We opine that some curious things will come to light on that trial. Perhaps the young man was swindled by an older head, and paid too much for his purchase. been arrested and sent up for trial also. Old man got his money and laughs.

The man who don't advertise has his the man who don't savertise has his store hung around with shingles and barrel-heads inscribed with lampblack, 'Irish Pertaters,' 'Korn Meel,' 'Flower,' All kinds of kontry produce,' 'Kaikes and Kandies for sale here.' LOAN ORDINANCES

The Attorney General introduced a bill to anthorise the consolidation of loans; read i first time and ordered to be read a second time on Thursday.

CUSTOMS DUTY DILL.

This bill came up for a second reading, and Mr Drake moved it be postponed until to-motrow.

Mr Alston seconded the motion to post pone, and at some length opposed the prin-ciple of the bill as being iniquitous and ob-noxious to a large number of people upon whom the tax would fall in uniqual propor-

The Chief Commissioner defended the rice once: Commissioner defended the principle of the bill and rebutted the argumen's of unfairness and inequality and reasoned that if those who had opposed the bill were in earnest about the matter they would show some other wears to suppose the would show some other means for supporting

would show some other means for supporting the telegraph.

Dr Helmeken was opposed to the bill and to the telegraph line at the price. He said the 'gain was not worth the candle.' He said the line was not wanted. The only purposes for which the line could be used were government purposes. He said it the government should spend \$8000 on that line they were not worthy of support. He would advise all the merchants to make their complaint to the Governor. Let them go in a bedy and tell him how highly they are taxed already.

The hon Collector said the tax was unfair,

that if fell entirely on a few merchants, the importers of the present year as the importations of last year were large and would compete with now shipments.
Several other members discussed at length

the merits of the entire question, as to the importance of the line and the means of its support, when the motion to postpone was

lost by a vote of 11 to 7.

To a motion to go into committee on the bill Mr Alston moved an amendment that an address be presented to His Excellency awking him to provide for the maintenance of the telegraph line out of the general revenue. The amendment was lost. The Council went into Committee of the

Whole, and rose and reported the bill as Report adopted and the bill ordered to be

read a third time to-morrow. Council adjourned to meet to-morrow at

THE NEW COMERS .- I'he steamers on Sunday and Monday landed about 200 pas. sengers on our wharves. Most of the new comers are young and vigorous fellows who seem to have an intimate acquaintance with seem to have a intrinsic acquired with soon give a good account of themselves in the placer diggings of Peace River or the older and better known hill olsims of Cariboo. Some of the new comers have been in the colony of the new country of the grant of the five of them carried heavy of the new comers have been in the colony before and not a few of them carried heavy swags of dust away in '64 and '65. Their experience will, of course, be useful to them in any field of industry they may select to occupy. There were also a few families who come among us with the elject of setting on our unimproved land and building up homes. We trust that every facility, encuragement and information will be given all by the Government, and that this, the third opportunity the country has enjoyed to secure a large and thrifty population, will not be suffered to glide away unimproved.

MYSTERIOUS CUTTING .- Unpe Pritchard, of the sloop Lady Franklin-San Juan La land trader-was found lying in his bank yesterday morning, bathed is blood that had issued from a dreadful knife wound in his lett thigh and groin. The Captain says that, while at the wharf the evening before, he was attacked and cut by some unknown person. He managed to reach the vessel. person. He managed to reach the Yessel and roll into the bunk where he was found. Dr Helmcken was sent for and ordered the man to be taken to the Hospital. The wound is of a most severe character.

SAN DIEGO. - These mines are pronounced a failure. The excitement was only started to draw the attention of Californians from the placer diggings of Peace River until the season became so advanced as to render a visit to them this year impracticable. San Franciscans are shrewd, generally; but they Franciscans are snrews, generally; but they den't appear to realize the fact that British Columbia must soon become a better customer of San Francisco than the interior of Colifornia which is already supplied from Chicago.

THEATRE ROYAL .- Mr Nobles took a benefit last night. Charles Selby's beautiful ros mance entitled the 'Marble Heart' was played with more than average ability and accept-ance to a full bouse. The evening's entertain-ment concluded with Jerrold's farce. Cool as ment concluded with Jerrold's larce. Cool as a Oucomber. The playing of Mrs Bates, Miss Mandeville, Mr Vinson, Mr Nobles, Mr Meiville and Mr Thornton was excellent and was enthugiastically applauded, but want of space precludes a lengthened notice. To-morrow evening, 'Elizabeth.'

Is IT Possible!-The Evening News has lived a year and a day. That cesspools and other nuisances should be suppressed instanter and the Father of Dirt permitted to exist as a nocturnal nosegay for a year and a day augurs but possly for the impartiality of the Mayor and Conneil. The cesspol-ought to protest against dying whilst the News is allowed to live on undisturbed.

NEW BRANCH OF INDUSTRY.-Mr George Robertson has imported a quantity of Italian marble, and leased the premises at the corner of Commercial and Yates streets. It is the intention of Mr Robertson to execute every description of work in marble. What about the vein of marble that is said to exist on Victoria Arm -could it not now be pro-fitably worked?

Br the London Times of Feb 23d we learn that about Jan 21st a contract was signed at Sydney, Australia, for a line of steamers Mr DeCosmos—To move an address to at Sydney, Australia, for a line of steamers between that port and San Francisco, touching at Honolalu.

GENEROUS ACT .- Capt John R Fleming. one of our oldest and most respected American residents, yesterday drew a check for \$1000 in favor of the Deluge Eogine Company, to enable that rganization to receive their new steam apparatus. The loan is without limit or interest. The act is a generous one and worthy the man. The steamer was yesterday unpacked and will be housed in a day or two.

NEARLY a year ago Charles Dickens declined to take part in certain private theatricals which were being prepared for the amusement of Queen Victoria at Bucking-nam Palace, on the ground that he did not care to go as an actor where he could not go as a genterman. Now the Queen has invited the great novelist to the Palace, and offered bim a baronetcy.

U. S. S. Monican .- A number of American and English ladies-gues's of Commodore Taylor and officers-accompanied by Mrs Francis, wife of the Hon Allen Francis, American Consul at this port, visited the USS Mohican on Monday and were hospitably entertained by Commedore Taylor and the officers of the ship.

SAN FRANCISCO .- As an evidence of the hard times at San Francisco, we may mention that at the latest real estate sale there only \$2050 worth was disposed of, although \$100,000 worth was offered. San Francisco used to 'mock at the calamity' of Victoria; but Victoria is magnanimous and sympathises with San Francisco in her distress.

THE steamer Enterprise, Captain Swanson, sailed for New Westminster yesterday morning at 10 o'clock. She had a large freight and about 70 passengers, 40 of whom are bound for the Peace River mines, and a number of the others were going to the agricultural districts on the Fraser River.

Done AWAY WITH .- The practice of wiring and sealing goods bound for American ports via British Columbia, has been discontinued by the American Customs authorities. and the Portland steamers will beneeforth discharge Victoria freight and passengers before proceeding to the Sound.

CLIPP NG Coin .- Some petty swindler in town is engaged in the laudable undertaking of clipping a small piece of silver from every American half-dollar that falls into his hands Hundreds of these clipped halves are in circulation.

IN BUSINESS AGAIN .- Mr R H Adams has commenced the hat business in San Francisco. His friends will find him at the Nucleus Hotel buildings, Third and Market etreets. THE American war steamer Mohican will

go to San Juan Island to-day. On the way over she will test the quality of the anthracite coal from Queen Charlotte Island. STEAMER DEPARTURES .- The Douglas for

Nanaimo, the Anderson for Paget Sound, and the Enterprise for New Westminster, sailed yesterday.

THE mail closed at 7 last evening. The express will close at 91/2 this morning. THE ACTIVE, for San Francisco

t 10 this morning. THE California, for Portland, will get off

at daylight to-morrow. THE Cedar Hill road is being repaired by Nicholson's party.

MARAVILLA Cocsa-For Breakfast-The Globe says-"Various importers and manufacturers have attempted to attain a reputaion for their prepared Cocoas, but we dubt whether any thorough success has been achieved until Messrs. Taylor Brothers discovered the extraor-linary qualities of Marailla' Cocea. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supercedes every other Cocoa in the market. Entire solutility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilia Cocoa above all others. the Maravilla Cocca above all others. For hemospuths and invalids we could not recommend a more agreeable or valuable beverage," Sold in packets only by all forcers, of whom also may be had Taylor Brothers' Original Homospathic Cocca and Soluble Chocolate, Steam Mills—Brick Lane, London, Lane, London, lawSat. lyr

French Medicines,

PREPARED BY GRIMAULT & CO.

Chemists to H. I. H. Prince Napoleon PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and the raise ties. They must not be consuded with seret or quack me icines, as their names sufficiently indicate the free consequence of the series of the faculty in the whole world. They widely differ from those numerous medicines advertised in the public paper as able to core every possible clease, as they are spill rable only to but a very few complaint. The meast stringent laws exist in France, with regard to the sale medical preparations, and only those when the discussion of the sale medical preparations, and only those when the discussion in the practice of the first medical men, are authorised by the Government. This fact must be a guarrantee for the excellency of Missens, Guinaute & Co's medicines.

Women's and Children's Diseases.

Grimault's Syrup of Iodized Horse Radish.

Patronized for more than twenty years by the Paris
Physicians. Cures lymphatism, rachit sm, scrotule,
